

## PROJECT FACT SHEET

## RITZ CARLTON

**CLIENT:** NILSEN WA

Nilsen Networks were engaged by Nilsen WA to Design, Supply and Commission the C-Bus SpaceLogic Lighting & Room Control System for the Ritz Carlton in Perth WA located in Elizabeth Quay.

The project consisted of commissioning of a full DALI system for all Restaurants, Bars, SPA's, Front and Back of house areas all spread over 18 Floors. Scenes were set over multiple nights working closely with the project lighting consultant to achieve the moods the Ritz Carlton required for their operations.

C-Bus ELDT panels and touchscreens were commissioned for easy user control and sensors commissioned in back of house areas for energy saving. All schedules, logic and BACnet integration handled by the latest C-Bus Network Automation controller and client GUI supplied for overall control of lighting.
