

PROJECT FACT SHEET

Customer: PS Structures

Project: Bravo Commercial Office Building

Project Profile: The 9000m² Bravo Office Building is an important feature of the greater Perth Airport upgrades being undertaken by Perth Airport Pty Ltd.

The new office building on the Perth Airport estate comprises five levels, with office accommodation over four levels, a gymnasium over two levels and a food and beverage outlet on the ground level.

PS Structures engaged Nilsen Pty Ltd for the design, supply, installation, commissioning and maintenance of the electrical services including LV power supply system, communications systems, lighting control systems, security systems including CCTV, and an energy monitoring system.

The buildings targeted environmental performance is 4 Star Green Star Rating in accordance with Green Building Council of Australia and NABER's rating of 4.5.

This 14 month project is due for completion in March 2015.
