

PROJECT FACT SHEET

Customer: John Holland

Project: Perth Children's Hospital

Project Profile: A new Perth children's hospital for WA was announced by the State Government in 2008 to replace the Princess Margaret Hospital for Children.

The new \$1.2 billion hospital will provide the best possible clinical care for future generations and will be the base for continuing WA's outstanding paediatric research.

Nilsen (WA)'s Contracting Team have been awarded the Design Assist and Construct, Electrical Shell & Core Package of electrical services.

Nilsen have been awarded the HV, supply of Switchboards, submains, generators, solar panels, lighting & power and all electrical installation and commissioning works for the fit out of the building.

The project commenced in mid-2013 and is targeted for completion late in 2016.
