

PROJECT FACT SHEET

Customer: Lend Lease

Project: Southlands Boulevard Shopping Centre RMU & Transformer

Project Profile: Southlands Boulevard Centre is at the centre of the southern suburbs and the heart of the local community. The Centre offers a mix of retailers including majors, fresh food and service providers and a cinema complex.

Nilsen were engaged for the replacement of the high voltage switchgear and transformers.

Nilsen utilised a team of 6 highly specialised staff to perform the switchgear and transformer upgrade and due to a in depth plan of works and the installation of 2 temporary generators, Nilsen successfully completed the works in November 2014 on time and in budget with no interruption to vendors and customers.
