

## PROJECT FACT SHEET

**Customer:** BGC Construction for WAGRA

---

**Project:** WA Greyhound Racing Association

---

**Project Profile:** WA Greyhounds Racing Association ( WAGRA ) is a completely new race course built in collaboration with the WA State Government. The race course uses the latest in lighting technology with LED, track lighting controlled via Cbus Lighting control Package. The new facilities include a Workshop, Dog Kennels, Administration & Control Tower. All these buildings formed part of Nilsen's scope of works.

Nilsen's team of 4 skilled tradesmen installed the Carpark lighting and the distribution boards for the site. Nilsen also engaged specialist contractors for Communications including optic fibre , CCTV & Access control.

The project was successfully completed in Q4 2015
