

PROJECT FACT SHEET

Client: ANZ

Builder: Lend Lease Multi Sites Vic

Consultant: Aecom

Project: ANZ Mt Waverley Data Centre – UPS 9 Augmentation Project

Nilsen Scope of Works: Manufacture & install (3) main switch boards, associated mains and sub-main cables, (2) external connection panels, (3) Site Mimic Panels (2) New LAP Panels, the Upgrading of (12) existing LAP Panels, provision of BMS for monitoring & metering, UPS power supplies to (4) existing PDU's and general light & power installation.

This was a fast track project with a programme of 12 weeks with the works to be undertaken within an operating data centre.

Considerable amount of planning and coordination was required to ensure the works were completed in accordance with the programme and the milestone dates set by Lend Lease & ANZ, including the cut over and going "live" with respect to each switch board.
