

PROJECT FACT SHEET

Customer: Brookfield Multiplex and City Busport Alliance JV

Project: Perth City Busport

Project Profile: The building of a new underground bus station aims to reconnect the CBD and Northbridge for the first time in more than 100 years.

The busport project will replace the ageing Wellington Street Bus Station with an Australian-first dynamic stand-allocation underground bus station.

Funded by the State Government and the City of Perth, the City Busport Alliance (the PTA, Brookfield Multiplex and BG&E) engaged Nilsen for the supply, installation and commissioning of the electrical services and dry fire services including SCADA, LV power supply system, lighting control systems, emergency lighting, security systems including CCTV and door access system and dry fire systems.

Commenced in May 2014, the project is scheduled for completion in December 2015.
