

## PROJECT FACT SHEET

**Customer:** BGC CONSTRUCTIONS

---

**Project:** QEII PATHWEST STAGE 1

---

**Project Profile:** The QEII Medical Centre in Nedlands is set to become the home to the largest diagnostic pathology facility in the State.

The new PathWest laboratory will provide world class tertiary level diagnostic testing for Sir Charles Gairdner Hospital (SCGH), other North Metropolitan Health Service hospitals, and referrals from regional branch laboratories, Specialists and General Practitioners. PathWest staff will also be active participants in the high level teaching and research activities on the QEIIIMC site.

Nilsen Contracting Team were contracted to provide HV incoming supply switchgear and metering, transformer for stage 1, consumer mains and LV distribution, earthing, lighting and power, laboratory lighting and power, communication cabling, security systems, fire alarm and UPS systems, testing and commissioning.

This project was completed in November 2012.
