

PROJECT FACT SHEET

Customer: Cooper & Oxley Builders

Project: Rockingham Hospital Phase 2

Project Profile: The Phase 2 Redevelopment of Rockingham Hospital involves the construction of a new Wards & Theatre Block comprising 4 operating theatres, a 10 bed recovery ward, a 22 bed day surgery and 60 plus general beds in 1, 2 & 4 bed configurations.

In addition 3 levels of the existing hospital are being refurbished into a new Neonatal ward, Chemotherapy and Ambulatory care wards, Mortuary, Consulting Suites, New Front Entrance and Pharmacy.

This entire project will involve over 22,000 man hours over a construction period of 2 years and incorporate a number of major shutdowns.
