

PROJECT FACT SHEET

Customer: Botanic Gardens & Parks Authority Western Australian Government

Project: Electrical and Data Network Maintenance Services 2011-2015

Project Profile: The Botanic Gardens and Parks Authority is a Western Australian State Government authority.

Nilsen Engineering Services has been awarded the renewal and extension for the Botanic Gardens and Parks Electrical and Data Network Maintenance Services contract through to 2015. The contract covers the historical Kings Park, Bold Park facilities and the Bio-Diversity research facility. The contract incorporates TEGG inspections, High Energy maintenance on HV RMU TX and LV distribution assets along with all field Service electrical, Communication/Data install and repairs. Kings Park is the crown jewel of Western Australia’s metropolitan tourist sites. Nilsen is proud to continue the association with the BGPA.
